## EXPERIENCE

### Adaan Digital Solutions Private Limited, New Delhi — Web Designer

October 2022 - PRESENT

- Build responsive websites for various international clients of 5+ countries.
- Created responsive and optimized and maintained code of 100+ websites using HTML5, CSS3, and JavaScript (ES6+), with consideration of SEO using best practices and validation methods
- Implemented web accessibility standards in website designs which improved performance of websites.
- Gained proficiency in reading documentation and client communication to resolve issues by 20%.

### Freelancing, New Delhi — Web Designer

Jan 2022 - Sep 2022

- Developed numerous websites as a freelancer over 9 months. Successfully created the website Shalom Worship, attracting 19k-21k visitors and 30k-40k page views monthly.

## PROJECTS

### Shopper – View Project

**Technologies Used :** React.js | Context API | Reducer | Tailwind CSS

- **Developed responsive and a dynamic e-commerce store** showcasing a variety of clothing and products.
- **Feature :** Add to Cart , Wishlist to add products in wishlist, multiple categories.
- This project enhanced my understanding of React.js, Context API, Reducer and Tailwind CSS.

### Ecommerce Store Project– View Project

**Technologies Used :** HTML5, CSS3, Vanilla JavaScript, LocalStorage, Fetch API

- **Developed a dynamic e-commerce store** showcasing a variety of clothing and products through interactive sliders. **Implemented DOM manipulation** techniques to create a seamless and engaging user experience.
- **Utilized LocalStorage** to persistently store multiple items, enabling a smooth transition and display of selected products on subsequent pages. **Integrated Fetch API** to display product data, ensuring the store remains up-to-date with the latest offerings.
- This project enhanced my understanding of client-side web development and data persistence, while honing my skills in creating user-friendly web applications.

### Shalom Worship – A Website which provides music sheets and helps musicians to play songs and learn music.

<https://www.shalomworship.com/> . This website provides music sheets and resources for musicians. Successfully attracts 19k-21k visitors and 30k-40k page views monthly..
