EXPERIENCE

Adaan Digital Solutions Private Limited, New Delhi — Web Designer

October 2022 - PRESENT

- Designed websites for various international clients.
- Created multiple websites using HTML, CSS, and JavaScript.
- Implemented web accessibility standards in website designs.
- Gained proficiency in reading documentation and client communication to resolve issues.

Freelancing , New Delhi — *Freelance*

Jan 2022 - Sep 2022

- Developed numerous websites as a freelancer over 9 months. Successfully created the website Shalom Worship, attracting 12k-15k visitors and 30k-40k page views monthly.

PROJETS

Ecommerce Store Project- View Project
Technologies Used : HTML, CSS, Vanilla JavaScript, LocalStorage, Fetch API

- **Developed a dynamic e-commerce store** showcasing a variety of clothing and products through interactive sliders.
- **Implemented DOM manipulation** techniques to create a seamless and engaging user experience.
- **Utilised LocalStorage** to persistently store multiple items, enabling a smooth transition and display of selected products on subsequent pages.
- **Integrated Fetch API** to display product data, ensuring the store remains up-to-date with the latest offerings.
- This project enhanced my understanding of client-side web development and data persistence, while honing my skills in creating user-friendly web applications.

Netflix - View Project
Technologies Used : HTML, CSS, Vanilla JavaScript, LocalStorage, Fetch API

- Developed using HTML, CSS, Vanilla JavaScript, LocalStorage, and Fetch API.
- Created interactive sliders to display movies and shows.
- Gained expertise in DOM manipulation techniques.
- Utilised LocalStorage for data persistence across pages.

Shalom Worship - A Website which provides music sheets and helps musicians to play songs and learn music. https://www.shalomworship.com/ . Developed a website providing music sheets and resources for musicians. Successfully attracts 12k-15k visitors monthly.
